

MEDICARE SPECIAL NEEDS PLANS

For Certain Chronic Conditions

Who Can Enroll in a Special Needs Plan for Chronic Conditions?

- Beneficiaries with chronic conditions such as diabetes, congestive heart failure, mental illness and HIV/AIDS who require more specialized focused care management. Plans will be expected to include providers who specialize in the conditions of the enrollees.

Important Information

Medicare beneficiaries may only be enrolled in one Medicare health plan at a time, and are allowed to make only *one* change per enrollment period.

Special Enrollment: Beneficiaries newly diagnosed, or not currently enrolled in a Special Needs Plan (SNP) may enroll at any time during the year

Extra Help: Reduces out of pocket costs for prescription drugs, and is available to Medicare Beneficiaries with limited income and resources. Apply at the Social Security Administration or local Department of Public and Social Services.

This list is provided for reference only. HICAP makes no claim as to the listed insurers' financial status, reputation or sales practices. We make no claims on the value of products sold by these companies or that this list is complete. HICAP does not endorse any specific health insurer or other related profit making enterprise.

Contact the plan to find out if they service your zip-code.
