

## Become a Registered HICAP Volunteer

Most Inland Agency HICAP volunteers start out as concerned citizens who have a question or issue regarding their own health insurance. Once they find the answer, they want to learn more and share what they have learned with others.

As a volunteer, you will receive in-depth training about Medicare and related health insurance plans. Upon completion of your training, you will be registered by the State of California and will participate in additional training and certification courses to maintain your expertise.

Through Inland Agency HICAP, you can become a registered Medicare Counselor, a Community Educator or assist in the office.

Whatever your talents or schedule may be, there is an opportunity for you. Please make an investment of your time to help others and become a HICAP volunteer today!

For an Inland Agency HICAP Volunteer Application contact the [Volunteer Coordinator](#) at: 1-800-434-0222 ext. 232
